

ALEXANDER JAMES A. REYES

Antipolo City | alexanderreyes.dev@gmail.com | 09166816126

PROFESSIONAL SUMMARY

TESDA-certified IT professional with hands-on experience in technical support, system administration, and helpdesk operations. Completed an internship at DepEd Calabarzon, providing end-user support and maintaining digital systems across multiple departments. Adept at troubleshooting hardware and software issues, setting up and maintaining workstations, and delivering clear technical assistance to non-technical users.

EXPERIENCE

IT Support Intern

DepEd Calabarzon | January 2026 – April 2026

- Performed structured cabling and network cable management across office areas, ensuring clean and organized installations.
- Provided daily technical support and troubleshooting solutions to staff across different departments, addressing hardware, software, and connectivity issues.
- Set up and configured sound systems and presentation equipment (projectors, microphones, speakers) for conferences, meetings, and official events.
- Responded to helpdesk requests and coordinated with department personnel to resolve IT-related concerns efficiently.

Work Immersion Trainee (CSS)

San Isidro National High School | March 2022 – April 2022 | Antipolo, Calabarzon, Philippines

- Performed formatting of computers and installation of operating systems (OS) for school use.
- Practiced assembly and disassembly of desktop computers, including identification and handling of internal components.
- Conducted basic hardware and software troubleshooting to resolve common technical issues.
- Applied Ethernet cabling techniques, including crimping and cable testing for network connectivity.
- Set up and configured peer-to-peer (P2P) networks to connect multiple workstations for resource sharing.
